Massimiliano Iaschi

564 Centennial Olympic Park Dr NW, Atlanta, GA 30313

EDUCATION

Georgia Institute of Technology, Atlanta, GA — *Expected May 2026*
B.S. in Mechanical Engineering — GPA: 3.97/4.00 (Major: 4.00/4.00)
Minors: Robotics, Biology

Liceo Scientifico Statale Stanislao Cannizzaro, Rome, Italy — *September 2016–Jul 2021*
Diploma di Esame di Stato — GPA: 9.85/10 (Final Exam: 100/100)

RELEVANT EXPERIENCE

Robotic Systems Lab (RSL), Visiting Researcher, ETH Zurich, Switzerland — Aug–Dec 2025

– Robotics simulation and learning to identify and quantify the morphological and computational parameters that affect biological and robotic lizards locomotion.
– Study the interaction between these parameters and its optimization.

CRAB Lab, Bio-Inspired Robotics Undergraduate Researcher, Georgia Tech, USA — Aug 2023–Present

– Main project: leveraging mechanical intelligence to enhance multi-legged robot performance in complex environments.
– Focus on bio-inspired design, control, physics-based modeling, SLAM integration.
– First-author and co-author on multiple peer-reviewed papers.

Autonomous Systems Lab (ASL), Visiting Researcher, ETH Zurich, Switzerland — May–Aug 2023

– Worked on *Proteus* AUV for exploration/rescue; independently tested robot; designed/tested traditional and soft robotic components to improve locomotion and deployment; created SLAM-based algorithms for motion planning.

PoWeR Lab, Bio-mechatronics Undergraduate Researcher, Georgia Tech, USA — Jan 2022–Apr 2023

– Contributed towards the recreation of Stanford's open-source Bump'Em platform (mechanical and control) in the lab.

Siena Robotics & Systems Lab, Summer Robotics Intern, Univ. of Siena, Italy — Jun–Jul 2022

– Generation of thermally induced tactile illusions for haptic devices: built custom hardware and implemented control systems for experiments.

Member of the HyperJackets team, Georgia Tech, Atlanta, USA — Aug 2021 – Aug 2022

– Designed braking system components as part of Georgia Tech's hyperloop team.

CONFERENCE TALKS

Iaschi, M. "Addition of a Peristaltic Wave Improves Multi-Legged Locomotion" — presented at ICRA (Atlanta), APS (Anaheim), SICB (Atlanta), 2025.
Iaschi, M. "Centipede Locomotion on Complex Environments," iPoLS Annual Meeting, Trieste, Italy, Jun 2024.

ROBOTICS PEER REVIEWER

Reviewer for one locomotion-related manuscript (ICRA 2025) and one soft-robotics manuscript (RoboSoft 2025).

ADDITIONAL SKILLS

Languages: English and Italian (fluent); Spanish (B1); French (A2).
Creative: Author of adventure novels for young adults (In italian). Author of poems. Art enthusiast.
